Volume 5 (2008 - 2013)
(Parts 1 - 6)**

**Compiled by
Andrew Leonard**

PTERIDOLOGIST is a journal of the British Pteridological Society and contains articles on ferns, clubmosses and quillworts, which should be of interest to both amateurs and professionals. The scope ranges widely, from gardening, horticulture and botany through natural history, ecology, medicine, folklore, literature, travel, the visual arts, furniture and architecture.
